

NANDINI LILHARE

MH | +91 9049700030
nandini19.lilhare@gmail.com

Summary

Senior Application Developer with 8+ years of experience designing and delivering scalable, high-performance backend systems across Telecom, IoT, Banking, and Cloud-Native platforms. Strong expertise in Java 21, GraphQL, Spring Boot, Spring Batch, Microservices, Spring AI, AWS Serverless, Gitlab Duo, Generative AI/Agentic AI and WastonX. Proven ability to build applications from scratch, handle large-scale data processing, and own systems end-to-end in Agile, production environments.

Experience

IBM | MH

Consultant | 05/2021 - Present

Client: Barclays – Broker File Processor (Channel & Venus - BFP) June 2025 – Present Tech Stack: Java 21, Spring Boot, Spring Batch, GraphQL, Kafka, S3, Protocol Buffers, GitLab Duo, Spring AI · Onboarded new brokers for post-trading market systems · Designed scalable file-processing pipelines for large broker files from S3 · Generated QuoteStore files using Google Protocol Buffers, decoupled from source formats · Implemented high-performance batch processing using Spring Batch · Built real-time monitoring dashboard for batch execution tracking · Developed customizable CSV/file reader to support multiple broker formats · Reduced build time from 20 mins to 5 mins via build cache optimization · Developed Reconciliation APIs to validate processed vs generated records · Standardized common broker mappings to eliminate duplication · Built integration test suites using Cucumber

Vodafone Idea

Client | 08/2022 - 02/2026

Tech Stack: Java 11, Spring Boot, MySQL, WebSphere, GitLab · Designed and developed secure REST APIs for mobile backend systems · Managed MySQL performance tuning, deployments, and schema updates · Translated business requirements into scalable backend solutions · Supported eKYC workflows and SIM enablement processes

Client: DISH

Rate Plan Configurator | 05/2021 - 02/2026

Tech Stack: Java 11, AWS Lambda, API Gateway, DynamoDB, DocumentDB, SAM-CLI · Built backend system from scratch using AWS Serverless architecture · Designed and deployed APIs using AWS Lambda & API Gateway · Automated infrastructure deployment via SAM-CLI · Integrated third-party APIs and managed DocumentDB CRUD operations · Implemented centralized exception-handling framework · Authored low-level design documentation · Owned end-to-end backend development and AWS infrastructure

Reliance Jio | MH

Java Developer | 07/2020 - 02/2026

Space on Hire Tech Stack: Java 8, Spring Boot, Spring Security, Spring Batch, MySQL, Angular 8 · Implemented authentication and authorization using Spring Security · Developed bulk data processing pipelines using Spring Batch · Created stored procedures and integrated billing workflows · Used Spring Profiling for environment-specific configurations

Altran (Aricent Technologies)

Software Engineer | 11/2017 - 02/2026

Client: Itron Tech Stack: Java 8, Spring, Hibernate, Maven, TestNG, GitLab · Developed and integrated smart meter solutions for Advanced Meter Monitoring (AMM) systems · Implemented meter data parsing using DLMS/COSEM protocols · Built backend components using Spring and Hibernate · Performed unit, functional, integration, and end-to-end testing · Automated performance and reliability test scenarios · Contributed to Network Platform Automation (DLCA, CAAS, Registrar modules) · Supported design enhancements, GitLab code merges, and provisioning workflow automation

Skills

Backend & Frameworks, Java 21, CI/CD: GitLab, Jenkins Databases, MySQL, SQL Server Tools & Platforms, Telecom Applications, IoT & Smart Metering, Banking Domain (Post-Trading Market), Application Layer Protocols: DLMS / COSEM (C1219), English, Hindi, Marathi, Spring Boot, Spring Security, Spring Batch, Spring AI, RESTful APIs, Microservice,

Hibernate, JPA, GraphQL, Cucumber, AWS Lambda, API Gateway, EC2, S3, DynamoDB, DocumentDB, GitLab, Maven, Postman, SoapUI, Insomnia, Jira, Dynatrace, Logz.io, WebSphere, Apache Tomcat, JBoss, ESAAS, Linux, Eclipse, IntelliJ

Education

Sunbeam Institute

Advanced Computing | 12/2017

Nagpur University

Computer Technology | 12/2015
